November 28, 2024 –
November 29, 2024

December 24, 2024 –
December 25, 2024

Happy Holidays!

CCWSC WATER DEPARTMENT HIGHLIGHTS

What's happening this month

➤ It is with a heavy heart that we had to say goodbye to Hank Biggers, who passed away on October 9, 2024. His passing has been deeply felt within CCWSC and this community. He will be greatly missed; his contributions were invaluable.

➤ The Board approved the Phase I Main Piping Improvement Project, which consist of $\frac{3}{4}$ of a mile starting on Bayshore Drive in Section 1. G&W Engineering was awarded the engineering planning bid on November 13, 2024 for \$20,000. With a total construction budget of \$200,000; which is the remainder of assessment monies. G&W Engineering will handle the topography, schematics, planning and regulatory approval for the project. G&W Engineering will also handle acquiring construction bids for the board to review and approve. G&W Engineering is out in the community this week performing the topography survey to start the planning of the project. CCWSC will keep the community updated as we have more information to share.

➤ Both of the older pressure tanks are currently being refurbished. JFX Coatings was awarded the bid for this work for \$25,958. This work has started and should be completed in the next few months. This will give our community the confidence moving forward that all of our tanks in the plant will be new and will serve our community well in the future.

➤ Lead Inventory was completed on October 16, 2024 and sent to TCEQ with no lead found in our system or community
